

Earth Electrodes at Cabinets

Issue 5, July 2014

Report Number: EEC/

Installation Details

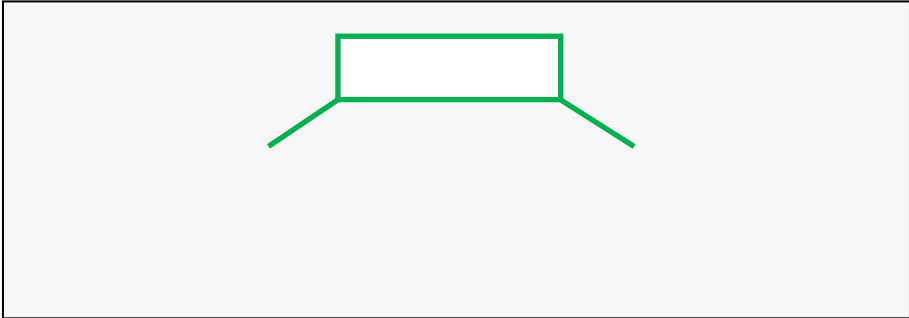

Installation address:

Cabinet Type:

Date Installed:

Associated PCP No.:

Particulars of Installation

Electrode length (total number of rods/length of tape, conductive concrete, etc)	Details of Installation Earth Electrode		
	Type (e.g. rod(s), tape, mats, conductive concrete, etc)	Location	Electrode resistance to earth Ω
e.g. 3m (2 x 1.5m x 3m) where the 3m is the total length, 2 is the number of rods, 1.5m is the rod length and 3m is the spacing			Show position of earth electrode(s) or extent of conductive concrete on diagram
Main Earth Conductor	Material:	c.s.a	mm ² Connection/continuity verified

Declaration

The extent of liability of the signatory or signatories is limited to the work described above as the subject of this certificate.
