

# Careers at Cubis Systems

Cubis Systems is a global leader in the design, engineering and manufacture of network access products for the infrastructure, utility and construction markets. Headquartered in Northern Ireland, Cubis is part of the €27 billion CRH Group and operates from multiple sites across the UK and Ireland, exporting to over 30 countries worldwide. Due to the continued growth of our business we currently have a vacancy for a:

## Moulding Setter (Nightshift)

### The Role

Based at our Tallington site and reporting to the Process Engineering Manager the successful candidate will provide tool change support and maintenance cover for key machines. The Moulding Setter will also be responsible for:

- Ensuring mould changes are carried out to a high standard in line with manufacturing specifications in a timely manner
- Working with leadership team to improve reliability and productivity of machines and equipment
- Carrying out planned and reactive low level maintenance work in a safe and timely manner
- Assist and support in the carrying out of production improvement projects
- Any other duties as deemed necessary by the production supervision.

### The Applicant

Candidates must have previous experience in injection moulding machine setting role working in a similar fast-paced environment. They must also possess the following skills and competencies:

- GCSE Maths & English, or equivalent
- Recognised qualification in injection moulding.
- Experience of working with and carrying out basic preventative maintenance on plastic injection moulding machines
- Experience carrying out full tool changes and setting up of production machines
- Must have a solid understanding of plastic injection moulding processes and automation
- Good awareness or training in key safety areas is desirable
- PLC interrogation knowledge is desirable
- Desire to improve processes, improve quality and productivity

*Cubis Systems is an Equal Opportunities Employer*
